コマンドを使ってAzureを操作

- Azure PowerShell
 - PowerShellに追加するモジュール
 - https://github.com/Azure/azure-powershell
 - 例: New-AzVM Name MyVM
- Azure CLI
 - AzureのCLI (Command Line Interface)
 - https://github.com/Azure/azure-cli
 - 例:<mark>az vm create</mark> -n MyVM

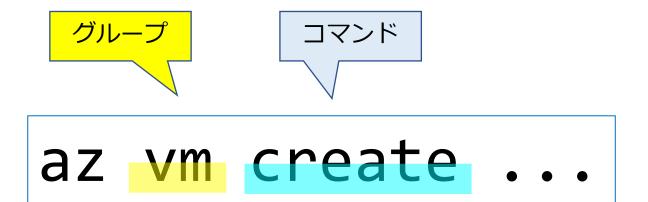

Azure PowerShell LAzure CLI

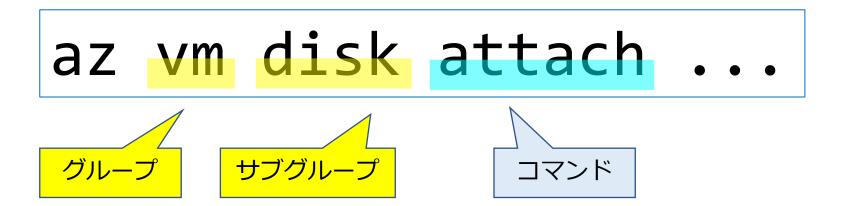

- ローカルPCにインストールして実行
 - サインインが必要
 - PowerShell: Connect-AzAccount
 - Azure CLI: az login
- Azure portalのCloud Shellから実行
 - サインインは不要

New-AzureRmVM

New-AzVM

詳細は--helpで確認

```
hiromichi@Azure:~$ az vm --help
Group
    az vm : Manage Linux or Windows virtual machines.
